The Card Holder gets the Card from his front office account manager. The front office account manager may hand over the Card only to the Card Holder or the legal representative of the legal entity or sole proprietor or private person, while he may not hand over to the authorised persons on the account the Card whose Card Holder is the legal representative or sole proprietor or private person.

The card holder shall use proper care with the card by:

- complying with all provisions of the general conditions applying to the use of the card;

- if the holder suspects that an unauthorised person knows his/her PIN, he/she has to inform the Bank and immediately change PIN at an ATM enabling such service.

The failure to use due care in handling of the card and the PIN number as defined herein is deemed gross negligence on the part of the card holder. The card holder shall comply with all other instructions, warnings and advice of the Bank referring to card use.

The card is valid for four years. The Card Holder can use the Card until the end of the calendar month and the year specified on the Card. Before the Card expires, the Bank will issue a new Card to the Card Holder to ensure uninterrupted operations. If the Agreement ceases to be valid or the account is closed, all cards (cards of the legal representative and authorised persons for debit card transactions) will cease to be valid and therefore the Card Holders lose the right to use the cards and the Bank may block them. The Card Holder shall return the Card to the Bank after closure of the account or withdrawal of authorisation. The Bank may but is not obliged to preventively block the Card when business security measures are being performed, for example if there are reasons that the Card may be abused or data stolen from it etc.

The Bank may block the Card in any case it deems to be required to protect the Card Holder. The Bank may also block the card if the Card Holder operates in a manner contrary to these General Terms & Conditions or in a manner that causes interruptions in the Bank's authorisation systems. The Bank informs the client on blocking of the Card.

The Card Holder shall use the Card in accordance herewith. The Bank may at any time cancel the Card in the case of violation hereof and the Holder shall return it upon the Bank's request. The Card is non-transferable and may only be used by the Card Holder. The Card Holder may use the card for transactions on points of sale and ATMs marked with BA and/or Maestro in the Republic of Slovenia and abroad. Cash and non-cash transactions with the Card are related to positive balance on the account in domestic currency including the available classic overdraft facility in domestic currency less the amounts under execution decisions (the available balance). Each amount spent on ATMs and/or POS terminals in Slovenia and abroad immediately reduces the available balance on the account.

Card transactions can be restricted by a daily limit. The card daily limit is related to ATM and POS terminal transactions. The daily limit is optional and set by the company.

The maximum daily limit for cash payments on ATMs is EUR 1,500 except where the daily limit for card transactions is less than that. The limit for a single withdrawal on an ATM depends on the limits of that machine. In certain cases abroad, the amount of cash withdrawal on an ATM may depend, regardless of the daily limit for cash withdrawal, on provisions of the bank owning the ATM.

The Bank shall not be responsible for any damage suffered by the user or holder of the card at a POS, other provider of payment services or ATM, if transaction or other service cannot be executed through no fault of the Bank.

The Bank will post the transaction on the Holder's Account on the date it receives the information on the financial transaction. In the case of card transactions in a currency other than the euro, the payment of the client's liability is made in euros where the exchange rate applicable under the MasterCard system will apply for conversion from the relevant currency to euros. The amount spent in another currency is converted into euros by applying the exchange rate valid at the moment of transaction processing by MasterCard (the transaction execution/authorisation date and the transaction processing date usually differ) which is presented on the statement.

When the Card is used on certain ATMs, the Card Holder may receive an advertising besides cash. The use of the deposit unit, payment of payment orders and purchase of GSM notes on ATMs is not permitted. If the ATM withholds the Card, the Card Holder will inform the Bank which will return the Card if no reason exists for its withholding.

If the Card Holder loses the Card, suspects the Card has been stolen or that an unauthorised person has learnt his PIN number, he shall notify the Bank immediately. The Holder or another person may notify the Bank in person in any branch office or by telephone to the corporate account manager or to the NLB Teledom, phone no. +386 1 477 20 00, if data on the Card and the Card Holder required to block the Card are given. The notice by telephone may also be submitted to the Bankart call centre, tel. no. +386 1 583 41 84. If the notice is submitted by telephone, a report must be signed with the corporate account manager as soon as possible. The Bank may but is not obliged to record such telephone notifications. If the Card Holder states in his notice/report that it was a case of theft, he should also report the case to the police. After the reported loss or theft of the Card, the Bank will issue to the Holder a new Card within three weeks from the date of written report. The Holder will also receive a new secret PIN number.

In the case of unapproved payment transaction resulting from the Holder's fraud, intent or gross negligence, the entire loss shall be covered by the Card Holder. In the case of an unauthorised payment transaction resulting from stolen, lost or abused card, the Holder shall cover the entire loss incurred 30 minutes after he informed the Bank on lost, stolen or abused Card. The Bank guarantees any loss incurred after 30 minutes have passed from the moment of receiving the notice from the Card Holder. The Bank performs activities to prevent the Card's use in the 30 minutes from receiving the notice, and therefore offers no guarantee for loss incurred from the Card's use during that time.

8.2. Use of the NLB BA Maestro Business Card for online purchases

The Bank shall enable the Card Holders with activated service SMS-Alert to use the NLB BA Maestro Business Card for online purchases of products or services on websites supporting the payment by NLB BA Maestro Business Card. If a Card Holder wishes to use the NLB BA Maestro Business Card for online purchases, the NLB BA Maestro Business Card must be personally activated for such purpose in the home branch of the Bank and the holder must accept the conditions for the use of additional security element MasterCard® SecureCode™ before the first payment, which shall be used by the Card Holder upon each payment.

The Card Holder must use the NLB BA Maestro Business Card for online purchases in the following manner:

- the data written on the card (card number, validity date) are set as the card's security mechanisms and are not allowed to be forwarded to anybody, except in cases an online purchase has already been performed and payment must be executed;
- the Card Holder must perform the online purchases only at secure websites and with secure and verified providers of goods and services;
- the Card Holder must always check for any published notices about online frauds;
- the Card Holder must make sure that the computer he uses for accessing online points of sale is safe and well protected against viruses and abuse.

The failure to use due care in handling of the card as defined herein is deemed gross negligence on the part of the card holder. The card holder shall comply with all other instructions, warnings and advice of the Bank referring to card use.

The Card Holder may cancel the use of the NLB BA Maestro Business Card for online purchases at any time, personally by submitting an application in the home branch of the Bank.

8.3. SMS-Reminders and SMS-Alerts for legal persons

The Bank enables the various types of SMS-Reminders and SMS-Alerts about the transactions of the Account Holder. The Bank shall approve use of the receiving of SMS-Reminders and/or SMS-Alerts under the condition that the Account Holder submits a completely and correctly filled in form and is correct in the relationship with the Bank, in the latter's opinion. The Account Holder who orders the service of receiving SMS-Reminders and/or SMS-Alerts for the use of services for which the Bank provides this option shall receive SMS-Reminders and/or SMS-Alerts from the Bank to the mobile phone number indicated in the application filed under these General Terms & Conditions. The Account Holder shall be responsible for the accuracy and truthfulness of data provided in the Application.

The Bank provides the receipt of SMS-Reminders and/or SMS-Alerts on mobile phone numbers of domestic or foreign mobile phone operators, depending on the type of SMS-Reminder or SMS-Alert. Several authorised persons of a legal person for receiving SMS-Reminders and/or SMS-Alerts cannot use the same mobile phone number.

The Account Holder must immediately communicate all changes related to his/her personal data, the card, the change of mobile phone number or cancellation of the mobile phone number or the Bank's services used, in relation to which the SMS-Reminders and/or SMS-Alerts are sent. The Account Holder authorises the Bank to collect, process and submit the collected data, in relation to and for the purpose of the provision of the service, to the data distribution company. The Bank guarantees that the data distribution company shall protect the data as confidential according to the law regulating personal data protection. The Account Holder has been informed that the message transfer system is not completely reliable and secure. The mobile operator does not guarantee safe and reliable sending of SMS-Reminders and/or SMS-Alerts to the Account Holder. The Account Holder waives any claims in this respect, especially, but not exclusively, the disclosure of the contents of SMS-Reminders and/or SMS-Alerts to unauthorised third parties or non-receipt of SMS-Reminder and/or SMS-Alert.

The Bank undertakes to send the Account Holder SMS-Reminders and/or SMS-Alerts according to the selected criteria, except in the case of force majeure or reasons on the side of the data distribution company or the recipient of SMS-Reminders and/or SMS-Alerts. The Bank does not guarantee that the SMS-Reminders and/or SMS-Alerts will be sent in due time, if the recipient is in a no-signal area preventing receipt of SMS-Reminders and/or SMS-Alerts, or if the recipient's SMS box is full, etc. If the recipient does not receive an SMS-Reminder and/or SMS-Alert, the mobile operator tries to deliver the message by the deadline and in the manner that it provides to its network users. The Bank will provide the best possible level of security measures to minimise the risks of an unauthorised insight into data, change of data and loss of data.

The Account Holder shall be charged a fee for the sent SMS-Reminders and/or SMS-Alerts pursuant to the NLB Tariff applicable at a time. The fee shall be charged monthly, provided the account or the service has been active for at least one day in the month and regardless of whether any transaction was made and irrespective of the number of sent SMS-Reminders and/or SMS- Alerts. The fee shall be settled pursuant to Article 12 hereof.

The Bank may suspend and terminate the service of the sending of SMS-Reminders and/or SMS-Alerts, if the provisions of these General Terms & Conditions are not complied with by the Account Holder, if the NLB business account is closed, upon the death or contractual incapacity of the recipient of SMS-Reminders and/or SMS Alerts, in case the authorisation for the NLB business account is revoked, on the request of the recipient of SMS-Reminders and/or SMS-Alerts or Account Holder, in the event of improper operation of the Account Holder or at its own discretion. The Bank shall also suspend the sending of SMS-Reminders and/or SMS-Alerts upon the request of the holder of the mobile phone number if it is established that this was not the Account Holder and if the owner of the mobile phone number so requires. The Account Holder may at any time cancel the service of receiving SMS-Reminders and/or SMS-Alerts, personally by submitting the application to their business account manager.

The user of the SMS-Alert service (hereinafter in this section: the User) receives information on a purchase with the Card and cash withdrawal on ATMs in Slovenia and abroad as well as for a purchase via the internet or telephone (internet purchase and catalogue sale) in the form of an SMS message to the mobile phone number submitted by the User. The Bank will send the user SMS-Alerts for executed and non-executed (rejected) authorised transactions that are of the amount within the range specified by the user for the SMS-Alert service.

SMS-Alerts for transactions involving a foreign-currency payment or cash withdrawal are informative and may deviate from the actual amount of payment or cash withdrawal due to varying reference exchange rates of the MasterCard and Visa card systems, if the time of transaction execution/authorisation is different than the time of processing transaction/financial transaction.

Data on the purchase amount are forwarded to the data distribution company solely for the purpose of informing the User.

The users who ordered the service of BA Maestro card for online purchases may cancel the SMS-Alert service only if they also cancel the use of BA Maestro card for online purchases.

8.4. SEPA Direct Debits

8.4.1. Account holder – Creditor (payment recipient)

The bank enables the Account Holder to use SEPA Direct Debits (SDD) in EUR as the creditor under the SEPA Core Direct Debit Scheme and under business-to-business (B2B) SEPA Direct Debit Scheme. For SDD the Account Holder must, as the creditor, conclude with the bank a contract on SEPA Direct Debit payment services. The bank will automatically charge the commission and costs for SDD against the

account of the holder when the transaction is conducted and inform the Account Holder thereof with a statement of account.

The Bank shall enable the recipient of payments to check the type of accounts of the payers which support SDD transactions. By controlling if the payer's account allows for SDD or not, the recipient of payment ensures that the SDD would not be rejected because of unsupported type of account.

8.4.2. Account holder – Debtor (payer)

The bank enables the Account Holder to use SDD in EUR also as the debtor–payer. The Bank does not support the use of SDD in foreign currencies. The debtor and the creditor agree on payment of debtor's obligation by SDD, whereby the debtor issues to the creditor mandate for SDD (hereinafter: mandate). The debtor must communicate to the creditor the changes of data contained in the mandate and the cancellation of mandate. The debtor must inform the creditor also if the NLB business account changes.

The debtor may give the creditor mandate for executing one or several SDD transactions. By giving the mandate to the creditor, the debtor allows a payment order to be charged against its NLB business account in the amount of liability using SDD. Based on the mandate the bank is authorised to debit NLB business account of the debtor.

The debtor may at the latest one working day before the execution submit a written refusal to the bank, within working hours, requiring it not to execute the payment order for SDD. Written refusal must contain at least the following data: reference number of the refusal, amount, date of execution and name of the creditor. Before execution of SDD, the debtor may object also with the creditor, in the manner and within the deadlines agreed between them.

The bank may enable the debtor an insight into or provide them the information about payment orders for SDD before the execution date. The debtor is informed about the SDD payment orders in the statement of NLB business account.

The Bank enables the Account Holder to use limitations related to the execution of all SDD or limitation of limitation of the execution of SDD for specific payment recipients only. Possible limitations are:

- the amount of individual SDD,
- for a specific period of time,
- for a specific consent,
- for the frequency of executing SDD (daily, weekly, monthly, quarterly, semi-annually, annually).

The Account Holder submits a request for the provision of service hereunder on the form Request for the limitation of SDD, which is published at the NLB Web Portal or available to the Account Holder or provided for the Account Holder by the Business/Account Manager.

The creditor and the debtor shall mutually resolve all complaints arising from their contractual relationship.

The debtor shall pay the bank commission for SDD execution in the manner and according to the applicable Tariff of NLB.

B2B SEPA Scheme

The rules defined in this section apply when the debtor (Account Holder) gives mandate to the creditor under the B2B SEPA Scheme. In such case, the debtor is not entitled to refund of SDD collection.

The debtor must inform the bank about the given mandate under the B2B SEPA Scheme in due time or no later than one working day before the first direct debit transaction against NLB business account, within working hours, and submit the bank a copy of the mandate or all mandatory data from the mandate in any other agreed manner. The debtor must inform the bank of any amendment or cancellation of mandate. The bank shall verify the data given in the mandate against the data on the payment order whereby the creditor orders the bank to execute SDD. The bank will reject the execution of the SDD payment order if it does not have all mandatory data about a valid mandate from the debtor or if these data are not consistent with the data given on the SDD payment order. If the debtor failed to inform the bank about the amendment or cancellation of mandate, the bank will execute SDD. The debtor's mandate becomes invalid if the creditor did not present a collection under a mandate for a period of 36 months. The bank executes SDD on the date of SDD execution, within working hours, if the debtor provides sufficient funds in NLB business account.

SEPA Core Direct Debit Scheme

The rules defined in this section apply when the debtor (Account Holder) gives mandate to the creditor under the SEPA Core Direct Debit Scheme. When executing a payment transaction, the bank does not check the existence and contents of mandate. The bank executes the payment transaction on the date of execution, within working hours, if the debtor provides sufficient funds in NLB business account.

The debtor may request refund of collection within 8 weeks after being debited at the latest. In such case, the bank refunds the funds and pertaining interest to NLB business account of the debtor at the latest in 2 working days after receiving the refund request.

The debtor may request refund of collection no later than in 13 months of the execution, if they inform the bank that the collection was not covered by a mandate, meaning the collection was unauthorised. In such case, the debtor bank requests from the creditor bank evidence of valid mandate. If it receives evidence of valid mandate, it grants or rejects the refund request based on the findings. If the bank receives from the creditor bank notification that a valid mandate does not exist or if it establishes, based on submitted evidence, that the mandate was not properly executed by the SDD collection, it will refund the funds to the account of the debtor and submit a request for refund to the creditor bank. Upon refund, the debtor is entitled to interest on the amount of collection since and including the execution of SDD until and including the day before refund to the account, at the EONIA interest rate. The debtor may submit a refund request only with the bank where SDD was executed.

The debtor is informed of the amount and date of an SDD transaction with a pre-notification of the creditor. The bank may enable the debtor an insight into or provide them the information about payment orders for SDD before the execution date.

8.5. SEPA bulk payments

SEPA bulk payment is a payment instrument in the framework of the SEPA Credit Transfer Scheme Rulebook for credit payments between the participants (payers and recipients of payments) holding accounts opened with the banks in the SEPA area who entered the SEPA Credit Transfer Scheme, used for executing individual payments to several recipients. The Account Holder may sign a contract with the Bank for the execution of SEPA bulk payments and sign a statement which is a constituent part of the contract. The Bank will execute payments to the recipients' accounts after it has received from the Account Holder the data in line with the instructions for SEPA bulk payments and when cover is provided in the total amount of the payments and fees on the holder's account. Payment purpose code shall be an obligatory part of the data to be submitted to the Bank by the holder of account pursuant to the instructions for SEPA bulk payments. The Account Holder alone shall be responsible for the accuracy of the payment purpose code and shall be liable to pay any damages the recipients of payments might suffer as a result of incorrect payment purpose code. The Bank shall not be held responsible for the accuracy of the payment purpose code submitted to it by the payer.

The Bank shall execute orders in accordance with the schedule published at its website, applicable at a time. The orders received by the Bank outside the business hours specified in the schedules shall be executed on the next business day.

The Bank shall charge the Account Holder for performing SEPA bulk payments in accordance with the currently applicable NLB Tariff. The Account Holder shall be obliged to immediately authorise the Bank in writing to debit their NLB Business Account for the nominal amount of the cheque, the cost of foreign bank and the Bank's cost.

When using the Automatic deposit service, the Card Holder may deposit banknotes in the value of EUR 100, 50, 20 and 10. A Card Holder may deposit up to 90 banknotes in a single Automatic deposit transaction. The banknotes must be smoothed and without paper clips since in the opposite case they could damage the ATM. The Card Holder undertakes to compensate the Bank for any damage suffered as a result of ATM damage.

The ATM checks the deposited banknotes for authenticity. If the ATM identifies a counterfeit banknote, it shall retain it of which the Card Holder shall be informed through the ATM display and a separate notice on the printed transaction slip where the number of the retained banknotes will be indicated. The Card Holder shall be obliged to visit the NLB Branch in which they have opened the NLB Business Account for further information on the retained banknotes.

The Account Holder shall be obliged to provide the balance on the account at the time when the obligation referred to hereunder falls due.

For repayment of overdue claims to the Account Holder arising from fees and costs related to other contractual and non-contractual relationships, the Bank may debit the holder's account.

The Bank may debit the holder's account for payment of fees for rendered payment services and services related to account transactions regardless of whether there is any balance on the account. The Account Holder agrees with debiting.

The Account Holder undertakes to pay and/or reimburse to the Bank all amounts of duties, taxes, bank fees and other costs incurred by the Bank for drawing up, execution and implementation of account transactions, if the abovementioned costs arise from the compulsory regulations applicable at a time.

13.Order of payments

Notwithstanding any different provisions in contracts on issuing a guarantee, loan agreements, agreement on assigning of receivables or other contracts made between the Account Holder and the Bank containing the authorisation for debiting the holder's account, if the available balance on the holder's account is insufficient to pay all due obligations of the Account Holder under any contract made between the Account Holder and the Bank containing the authorisation for debiting the holder's account, all obligations arising

from the oldest drawn amount shall be settled first (in the case of agreements on assigning of receivables, the "drawn amount" the principal amount of receivables and any default interest and in the case of guarantee agreements the "drawn" amount means the amount paid by the Bank on the basis of a claim for payment under a guarantee and any default interest) or, if the obligation does not stem from the drawn amount (e.g. processing fee and fee for reserving funds), then the contract date shall be deemed the relevant criteria for determining the order of payment of overdue amounts.

In the case of several overdue obligations stemming from the same drawn amount, then regardless of the maturity date, first all taxes, fees, costs, default interest accrued in the previous month will be settled followed by regular interest, the principal and finally the default interest accrued in the current month. In the case of several overdue liabilities from taxes, fees, costs etc. they will be settled in the same order as they fell due.

Notwithstanding the previous two paragraphs hereunder, the Bank may at any time use a different order of repayment of receivables.

14. Cash operations of the holder of the NLB business account

The Bank enables the Account Holder cash operations whereby the Account Holder shall comply with the regulations governing cash operations.

If the Account Holder disagrees with the proposed change, he shall terminate the Agreement by the date before the changes enter into force. 19. Term and termination of the Agreement

The Account Holder may terminate the Agreement only if this does not represent a violation of other contractual provisions concluded with the Bank and if all the liabilities arising therefrom are settled before the account is closed.

The Bank may terminate this Agreement without a notice period, should it find out that the Account Holder did not comply with the provisions set out in the Agreement, the General Terms & Conditions – especially if the Account Holder did not settle his liabilities arising from the agreement on classic overdraft facility on the NLB business account and other obligations towards the Bank.
