

INTERNAL SIGNAGE OF THE BUSINESS BUILDING

Signage of the NLB business premises in other business buildings

September 2024

- 01** Introduction of internal signage elements
- 02** Materials and colors
- 03** Schematic plans and graphic grids

Signage of the NLB business premises in other business buildings

NLB business premises in a business building not owned by NLB are equipped with a signage board 3. The board is in NLB indigo blue and is equipped with an outline sign and information in white. In addition to the signage board, we equip the entrances with a “Security and video surveillance” sticker and a security line on the glass surfaces.
